NPN# 80002355

6 Reasons Why:

Smallest tablets in Canada. All tablets are embossed with JAA Trademark.

All Raw materials, Finished products are tested in house & released by QA before use.

Products are Mfg. at Jaapharm CGMP** facility in Canada License 300109 issued by NHPD***.

Packaging is done at Jaapharm CGMP** facility in Canada License 300109 issued by NHPD***.

Finished products are also tested for dissolution under USP Monograph in house.

All products are on stability, dissolution & microbial testing program.

NPN# 80001129

Dissolution characteristics to bioavailability of a solid dosage will vary with factor of formulation or by manufacturing process. It can be used to identify bioequivalence problems and can serve as a signal of bioequivalence as well. Jaapharm dissolution systems are state of the art fully automated in Canadian pharma industry.

- ① Vessels creating gastro-dissolution conditions measuring drug levels to the plasma from intestine bypassing the stomach (gastro track) resulting in no side effects.
- ② Auto sampler with 8 designated tubes for each vessel collecting sample at assigned intermissions and delivering to Agilent UV-Visible Spectrophotometre.
- ③ Agilent UV-Visible Spectrophotometre analysing each sample instantly and send results to the PC system.
- ④ PC Systems linked to dissolution systems.
- ⑤ HPLC systems for method development.
